DRILLING AND TESTING SERVICES

JK350

	JK350 (Isuzu) ZGX429
DIMENSION / RIG TYPE	TRUCK MOUNTED
A HEIGHT FOR WORK (mast vertical, ground surface horizontal – add up to 1 metre for slopes up to 1:10 or 6 deg)	6.2m #
B HEIGHT FOR TRAVEL ON SITE (mast horizontal)	3.3m
C HEIGHT FOR TRAVEL ON ROAD (mast horizontal, including truck)	3.3m
D WIDTH FOR TRAVEL ON SITE (see note below regarding safe work) *	2.2m
E RIG LENGTH FOR TRAVEL ON SITE (mast horizontal)	7.1m
F LENGTH FOR TRAVEL ON ROAD (including truck)	7.1m
G WORKING RIG LENGTH (mast vertical) **	7.1m
SUITABLE UP TO DEPTH ***	60m
WEIGHT OF RIG ON SITE	8.5t
REGISTERED VEHICLE WEIGHT (TARE)	6.1t
MAX WEIGHT ON ROAD (GVM)	8.5t

Notes

#	JK350	Extension can be removed for max height of 6.6m upon request.
*	All Rigs	Room to move around equipment for safe operation is required. Additional 2m required if recirculation of drilling mud is required when coring.
**	All Rigs	Space is required for equipment handling during operation. Note also that length required for unloading = travel length + rig length + ramp length.
***	All Rigs	May require support truck for equipment in excess of standard equipment load. Remember to consider this when quoting.
